

Next-Generation Body Composition Analytics for Clinical Research Excellence

NovoBliss Research has enhanced its clinical and metabolic assessment capabilities with the integration of the medically validated InBody[®] 120 body composition analyzer. This non-invasive system provides precise, reproducible measurements of key body composition parameters, supporting objective monitoring and strengthening data quality in nutrition and wellness studies—further reinforcing NovoBliss Research's commitment to scientifically robust, regulator-ready research.

Demonstrating NovoBliss Research's continued commitment to learning and industry engagement, Dr. Nayan Patel, Director, and Dr. Aayush Gandhi represented the organization at key national and international platforms.

Their participation in In-Cosmetics Asia (Bangkok), CMPL CONNECT (New Delhi), CPHI & PMEC India 2025 (Delhi NCR), and Cosmoprof India 2025 (Mumbai) enabled valuable knowledge exchange, strengthened industry connections, and ensured alignment with evolving scientific, regulatory, and market trends—supporting NovoBliss Research's mission to deliver credible, future-ready research solutions.

Celebrating Together: A Joyful Wrap-Up of 2025

The final week of 2025 was celebrated with vibrant energy as our team came together for a colourful and engaging staff celebration. Each day featured coordinated color themes, creating a lively atmosphere across the workplace, along with fun team games that encouraged participation and camaraderie. The celebrations were complemented by team lunches, offering moments to connect, unwind, and reflect on the year's achievements. It was a memorable close to the year—filled with teamwork, positivity, and shared smiles as we stepped forward into the new year together.
